KUAS Engineering Department
3 mins · 🌐

"I want you to study here, realize your dream, and surprise the world." – said Shigenobu Nagamori, the Chairman of the Board Directors of the Kyoto University of Advanced Science (KUAS). He is also one of the most successful Japanese business men - the founder and chairman of electronic motor giant Nidec. Now, he is aiming to create a revolutionary program that responds to modern demands for specialists in the electrical, mechanical & mechatronics fields. For more about his vision, visit: <https://adv.kuas.ac.jp/en/intl/vision>

[News] KUAS' Engineering Department launches Facebook page!

[The Kyoto University of Advanced Science's \(KUAS\)](#) Engineering Department has officially launched its new [Facebook](#) page. The page will be regularly updated in preparation for its launch in 2020. It will feature the latest news about Japan's first all-English Engineering program, including information about admissions, curriculum, staff and faculty. On top of that, it will introduce Kyoto's exciting culture and give insights into the lifestyle in Japan's ancient capital. Feel free to give us a follow at: <https://www.facebook.com/KUASeng2020/>

The Kyoto University of Advanced Science's (KUAS) all-new, innovative English-taught engineering department is currently in the planning phase for its launch in 2020. The school itself has a 50-year history since its establishment, and is an accredited private institution located in the heart of Japan. By inviting the top-notch CEO of a Kyoto-based globally successful firm as chairman, the university aims to offer its academic resources in the international arena, with the exciting new engineering department being one example of these efforts.
